Election/Restrictions

1. In view of the Appeal Brief filed on August 22, 2005, PROSECUTION IS
HEREBY REOPENED.

However, before any further prosecution can proceed an election of the invention is necessary.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-27, 43-49, and 53, drawn to Network resource access
controlling, classified in class 709, subclass 229.
 - II. Claims 28-29, 50-51, and 54, drawn to Cooperative computer processing,
classified in class 709, subclass 205.

Because these inventions are distinct and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Stephen R. Tkacs (Reg. No. 46,430) on October 21, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 2155

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
